Overview; a exhibition by Lewis Teague Wright at SAMUEL, Chicago.

In ‘Overview’, Teague Wright has invited 35 artists to submit a flag based on the Earth Day Flag. The flag was invented by John McConnell in 1969 as a symbol of environmental protection. The title plays reference to the Overview Effect; a sensation felt by astronauts as they take their first glimpse of the Earth, orbiting above us, struck with the insignificance of life on our planet.

ATARI AGE

Sobrepoblación de "árboles"

El Gobierno de Nicaragua habría invertido 3.3 millones de dólares en la construcción e instalación de 134 estructuras metálicas de ornato en Managua. Sin embargo, se niegan a dar información precisa sobre el tema.

Material	Colores	Fabricación
Acero, hierro, cemento y cables.	Rojo, amarillo, verde, fucsia, celeste, morado y blanco.	Empresa Nacional de Transmisión Eléctrica (Enatrel)

MODELO 1

Cantidad de árboles instalados:
134

Costo aproximado por árbol:
US$25,000

*Costa total aproximado:
US$3,350,000

*No incluye consumo de energía ni vigilancia

MODELO 2
